

FAMILY

VILLAMIZAR

Adriana, Jarving and Katalina

ABRYL

2022

The members of this family are born in the city of Bucaramanga, Colombia. Jarving received Christ in 1998, Adriana in 2002 and Katalina in 2015. Together they have supported the work in the Church of Christ in Bucaramanga in the San Miguel neighborhood.

As a marriage, they were the promoters in the creation and organization of ministries. Currently, the congregation has 17 ministries and this year they made an adjustment, appointing coordinators. They seek to organize the church in the appointment of elders, since since the gospel arrived in the city this has not been possible.

Jarving is a preacher, teaching coordinator, leader of the ministries of benevolence, exhortation and restoration. Adriana supports him in his work and additionally accompanies him in the ministries of ladies, advertising, audiovisuals and praise. Katalina supports the Ministries of Advertising and Audiovisual.

When they started their studies at the ILEB, as a family they had chaos, as Jarving worked as a motor head rectifier, they had a small hardware business and additional high-performance cycling Katalina.

They would get up at 3:00 am and try to go to rest around 10:00 pm in order to fulfill all their homework. When Covid-19 arrived, it was a blessing as a family, because they managed to rest, what they wanted for several years, they regained strength. Jarving was left without a job, but God increased sales a little in the hardware store and additionally obtained the scholarship for the Didaskalos plan at the ILEB. During this time Katalina was discouraged from continuing as a cyclist, since she noticed that in the

competitions there was favoritism and also some girls doped to win. Today she decided to study Advertising and Digital Marketing, she is not yet enrolled, they are waiting for God to allow them to have the means to help her enter university.

Studying at the ILEB has allowed them to find those shortcomings and gaps that they have as a family and also as a church, they have received the tools, little by little, to improve and make their service to the brothers of quality. They have managed to grow in spirit and knowledge.

The development of the activities that the teachers ask of them to strengthen what they have learned, has allowed them to see beyond and project themselves, in the delivery of service to the work of the Lord, and why not, to found a congregation or be missionaries.

They are willing and ready to receive the Lord's call. They have even sold the hardware store to be able to work 100% for the Lord. With the money received, they paid some debts they had and trust God to be able to clean up those that are pending.

They support foundations for special children and low-income children. In these tasks they have experienced the importance of serving unbelievers, since we helped only

They support foundations for special ,

They support foundations for low-income children

economically.

By being supporters, they can see closely the needs of these people and with their service be relief in the tasks of the foundations.

At the moment they are praying that the Lord will give them that wisdom and be able to make the best decisions as a family, continue to serve, be used and be chosen by the Lord to bring the word to many parts of the city, country and the world.

The family sends all his siblings a big hug full of gratitude.
